

Church  
Windows

**Church Windows**

**What's New in Version 16.13.2 (Service Release 2)**

(10/13)

## **Membership & Donations**

- Changed default for new labels to down and then across

## **Donations**

- Added default option under “Edit Detail section” on Donation Statement to print down and then across or print across then down
- Clover Donations and a generic format added to Import Donations for automated giving
- Improved Contact and Address selector in Donations

## **Accounting**

- 2013 Tax Forms for Federal forms 1099s and 1096
- Ability to print transaction report for Asset Adjustment

## **All Modules**

- Improved performance on various reports and functions
- Bug fixes

*This is the last update CD for customers still using Contributions or Financial Modules. If you are still using these older modules, please keep this CD in a safe place in case it is needed for reinstallation of the program.*

*The next release of Church Windows will be implementing an upgraded .Net framework and will require conversion to Donations and Accounting before installation.*

*Likewise, this will be the last version of Church Windows that will install on Microsoft Windows XP and Server 2003.*
