Church Windows

What's New in Version 17.14.4

(04/15)

Membership

- Report selections for Date, Numeric, and Character type fields now have a “Not” option allowing you to negate any selection.
- Report selections for Date fields now have a “month through month” selection option.

Accounting

- Pay Bill amounts remain on screen after saving the batch.
- Deposit slip reports will now correctly handle cash amounts split between assets.
- Header lines will once again appear on all reports.
- Report column order and widths are saving per report.
- Transaction comment corrections are saving properly.

Donations

- Improved Donation Statement, quarterly section display of year.
- Better editing of giver identifiers for imported donations.

Scheduler

- Improved handling of multiple location events in reporting.
- Improved location sorting on reports.

Bug Fixes

- All modules
