

Church  
Windows

**What's New**

Church Windows Version 18.15.1  
(12/15)

## Membership

- Improvements to the Attendance Entry screen to allow for faster input and a customized layout.
- The Add Member/Visitor screen available from many entry screens now provides a way to enter Directory/Report order information.
- An additional date sorting option is now available on Membership reports.
- Improved layout creation process for exporting membership data.
- Mailing Label and Salutation fields are now available for Directory Exports.
- Summary by Event report is now available directly from the Attendance Entry screen.
- The grid on the Attendance Entry screen now has sorting options available for keeping family members together.
- Various bug fixes.

## Donations

- Added ability to filter by Payment Type on the Browse/Edit Donations screen and the Donations Log report.
- Added a Statistical Report
- Added the ability to optionally add donation comments on Donation Statements.
- Sorting by percentage is now an option on the Pledge/Giving Analysis report.
- Various bug fixes

## Accounting

- New 1099 and 1096 Tax forms
- Non-required fields on transaction entry screens can now be turned off if they are not needed.
- Added the ability to view a whole transaction at once on a form similar to the transaction entry forms from the Browse Transactions screen.
- Various bug fixes

## All Modules

- Improved visibility of current sorting choices on all report screens where sorting is available.
- Improved lookup controls so that items are not unintentionally selected when not actually making a selection.
