Church Windows

What's New in Version 16.13.0

(04/13)

New Features/Enhancements

Membership, Donations

- Added a "Visitors Only" choice on membership query selectors.
- Labels - Allow sorting by more membership fields, especially by the additional field chosen.
- Labels - Date for giver number more simple to use. No need to click a button
- **Membership**
- Pushed criteria displayed in the little "i" on the preview through, from the grid to the labels.

Donations

- Various Performance improvements
- Allowed the end date of Giver Numbers to be directly edited like Start Date
- Improved the ability to delete Giver Numbers and consolidated the functionality of several buttons on Manage Giver #'s to a single delete button
- Removed the need for blank giver numbers
- Added confirmation message box before emailing Donations Statements
- Manage Givers - If not showing inactive people, remove them from the giver lookup at the top of the screen.
- Added a current number End Date column to the List Giver # Report.
- Allowed *.local* to be part of a valid SMTP host for emailing statements
- Allowed small Date range screens to be closed by hitting the enter key.

System/Other

- Upgrade of SQL Server to 2008 R2 SP2 for full compatibility with Windows 8 and Server 2012
